The Columbarium is near capacity and suffers from years of deferred maintenance.

St. Columba’s Episcopal Church
The Vestry and interested parishioners have worked with landscape architect Lila Fendrick, to develop a plan to expand and beautify the Columbarium.
A renovated Columbarium will increase capacity by 110 niches.
The new niches will be located in the Lower Courtyard Floor.
A renovated Columbarium will have new plantings and paving, be newly landscaped and include a fountain.
The Columbarium will be beautiful again.
COLUMBARIUM
EXPANSION & RENOVATION

St. Columba’s Episcopal Church

This project must pay for itself through the willingness of a critical mass of parishioners to purchase niches now.
